

Easidose Perfumed Antibacterial Bath & Washroom Cleaner

Description

Specially designed for use through the Easidose dispensing system. A 4-in-1 product that cleans, disinfects, removes limescale and deodourises in one operation. It effectively removes natural oils, soap deposits and general soil from baths, sinks, showers, WCs, tiles, glass screens and hard floor coverings. It helps to prevent hard water deposits from forming on surfaces, using a naturally derived acid and leaves a refreshing mild citrus fragrance to deodourise the room. Conforms to EN1276 when diluted to 2.7% (20 ml per 750 ml flask). Super concentrated for economy in use and a reduced carbon footprint. Use disinfectants safely. Always read the label and product information before use. With each product in the range you get the incredible cleaning power of our Evolution Concentrates, with the added benefit of being incredibly easy to dispense an accurate, measured dose for dilution. It's tough to know exactly how well a product will perform without trying it before. The beauty of our concentrates means that if the job requires a slightly stronger or weaker solution, we give you the dosage instructions to match.

Directions For Use

Refilling from the Easidose Bottle System: Dose rate 5, 10, 15 or 20 ml per 750ml flask, depending on the degree of soiling. Fill flask to line level with clean fresh cold water from a tap. Remove the cap from the bottle and gently squeeze to fill the built in measuring cup. After measuring, carefully pour the measured dose into the pre-filled flask. Re-attach the trigger spray head and lightly shake mixture to fully dilute. The mixture is now ready to use. Instructions for use: 1. Apply product to a clean cloth or paper towel. 2. Apply to surface to be cleaned. For best results, ensure the surface remains moist for 5 minutes 3. Rinse surface thoroughly with clean water. 4. Allow to air dry or buff to a finish.

Product Codes

ED6/1L, EVOESD-6-RF-6X750

Storage

Store in cool conditions away from direct sources of heat.

Avoid extremes of temperature.

Do not allow to freeze.

Keep out of reach of children.

Shelf Life

Shelf life 24 months, if stored as recommended.

Use within 6 months of opening.

Environmental

Neat product will cause damage to plant and animal life.

Do not allow neat product enter surface waterways as serious ecological damage may be caused.

In the event of a large spillage, contact the local water authority or Environment Agency immediately.

This product uses recyclable packaging.

It contains no Phosphates.
