

Easidose Window & Stainless Steel Cleaner

Description

Designed for use anywhere that a streak-free finish is required. This includes glass, perspex, aluminium and stainless steel. The product effectively cuts through grease and atmospheric grime. With each product in the range you get the incredible cleaning power of our Evolution Concentrates, with the added benefit of being incredibly easy to dispense an accurate, measured dose for dilution. It's tough to know exactly how well a product will perform without trying it before. The beauty of our concentrates means that if the job requires a slightly stronger or weaker solution, we give you the dosage instructions to match.

Directions For Use

Refilling from the Easidose Bottle System: Fill flask to line level with clean fresh cold water from a tap. Remove the cap from the bottle and gently squeeze to fill the built in measuring cup. After measuring, carefully pour the measured dose into the pre-filled flask. Re-attach the trigger spray head and lightly shake mixture to fully dilute. The mixture is now ready to use. Instructions for use: 1. Apply product to a clean cloth or paper towel. 2. Apply to surface to be cleaned. 3. Allow to air dry or buff to a finish.

The product may be dispensed by the Easidose Dispenser into the 750 ml flask at a rate of 5 ml (light soiling), 10 ml (light to moderate soiling), 15 ml (moderate to heavy soiling) or 20 ml (heavy soiling), depending upon the strength of finished product required. Apply product to paper wipe. Wipe surface to be cleaned. Buff surface with a clean paper wipe for a streak free finish. Repeat the process if soiling is heavy.

Product Codes

ED8, EVOESD-8-RF-6X750

Storage

Store in cool conditions away from direct sources of heat.

Avoid extremes of temperature.

Do not allow to freeze.

Keep out of reach of children.

Shelf Life

Shelf life 24 months, if stored as recommended.

Use within 6 months of opening.

Environmental

Neat product will cause damage to plant and animal life.

Do not allow neat product enter surface waterways as ecological damage may be caused.

In the event of a large spillage, contact the local water authority or Environment Agency immediately.

This product uses recyclable packaging.

It contains no Phosphates.
