

## Easidose Perfumed Multi-Surface Cleaner

### Description

Developed for use via a trigger spray and mop bucket application. A highly concentrated formulation designed as a versatile washroom and general purpose cleaner with a fresh citrus fragrance. Ideal for the cleaning of all hard surfaces and floors (not for use on pre-polished floors). Recommended dilutions will be dependent on the condition and soiling level of the floor and surfaces to be cleaned. Super concentrated for greater economy in use and a reduced carbon footprint. With each product in the range you get the incredible cleaning power of our Evolution Concentrates, with the added benefit of being incredibly easy to dispense an accurate, measured dose for dilution. It's tough to know exactly how well a product will perform without trying it before. The beauty of our concentrates means that if the job requires a slightly stronger or weaker solution, we give you the dosage instructions to match.

### Directions For Use

Specially designed for use through the Cleenol Easidose dispensing systems. The product may be dispensed by the Easidose system into the 750ml flask at a rate of 5ml (light soiling), 10ml (light to moderate soiling), 15ml (moderate to heavy soiling) or 20ml (heavy soiling), depending upon the strength of finished product required. For a mop & bucket application - use between 10 and 20ml per mop bucket based on soiling level of the floor and surfaces to be cleaned and depending on the size of the bucket, which can range from 8L to 20L. Refilling from the Easidose Bottle System: Dose rate 10-20ml per 750ml flask, depending on the degree of soiling. Fill flask to line level with clean fresh cold water from a tap. Remove the cap from the bottle and gently squeeze to fill the built in measuring cup. After measuring, carefully pour the measured dose into the pre-filled flask or bucket. Re-attach the trigger spray head and lightly shake mixture to fully dilute. The mixture is now ready to use. Instructions for use: 1. Apply product to a clean cloth, paper towel or mop. 2. Apply to surface to be cleaned. 3. Rinse surface thoroughly with clean water. 4. Allow to air dry or buff to a finish.

### Product Codes

ED10/1L, EVOESD-10-RF-6X750

### Storage

Store in cool conditions away from direct sources of heat.  
Avoid extremes of temperature.  
Do not allow to freeze.  
Keep out of reach of children.

### Shelf Life

Shelf life 24 months, if stored as recommended.  
Use within 6 months of opening.

### Environmental

Neat product will cause damage to plant and animal life.  
Do not allow neat product enter surface waterways as serious ecological damage may be caused.  
In the event of a large spillage, contact the local water authority or Environment Agency immediately.  
This product uses recyclable packaging.  
It contains no Phosphates.
