<b>Additional information</b>	Virkon® in powder or tablet format, is a reliable broad spectrum high level disinfectant which combines effectiveness, safety and ease of use with environmental compatibility. Virkon® is ideal for maintaining a hygienic environment to reduce the transmission of pathogenic micro-organisms through contact with surfaces and equipment. Virkon® is very effective at the decontamination and prevention of spread of virus infections such as “Winter Vomiting Disease”. Tablets are suitable for low volume applications using the spray bottle. Tablets are convenient to store, easy to use and simplify the process of making the correct strength solution. To use, simply dissolve one tablet per 500 ml of water and the solution is ready. 1% Virkon® has activity equivalent to 1,000 p.p.m. chlorine, without the associated hazards, corrosion potential and loss of activity due to the organic challenge
